Questions Concerning the Proposal as a Whole

1) Completeness and clarity: Is the combined proposal complete? Each of the operational community proposals contains aspects to be completed in the future when the proposal is implemented. Is the combined proposal specified in sufficient detail such that it can be evaluated against the NTIA criteria?

It is clear enough.

My answer is no I do not want this to take place period. Stay out of the internet operations period

2) Compatibility and interoperability: Do the operational community proposals work together in a single proposal? Do they suggest any incompatible arrangements where compatibility appears to be required? Is the handling of any conflicting overlaps between the functions resolved in a workable manner?

See answer Number 1

3) Accountability: Do the operational community proposals together include appropriate and properly supported independent accountability mechanisms for running the IANA functions? Are there any gaps in overall accountability under the single proposal?

See answer Number 1

4) Workability: Do the results of any tests or evaluations of workability that were included in the operational community proposals conflict with each other or raise possible concerns when considered in combination?

General Questions

12) Do you have any general comments for the ICG about the proposal?

Yes. Forget it. Leave ALL governments out of the control of the internet in any way. Governments always screw up something that works well without their meddling.
