

Name: Eliot Lear

Submission ID: 37

To whom it may concern,

My name is Eliot Lear. I've been an active developer on the internet since approximately 1984, and have served in various capacities in various organizations to see that IP is on everything. In my opinion, coupled together with an appropriate accountability mechanism, what is proposed by the ICG is sufficient to meet the objectives of the NTIA and perhaps more importantly the needs of the Internet community. I would also like to support the IANAPLAN working group's requested modification regarding the introduction.

Thanks for your time and effort.

Sincerely,

Eliot Lear
