

Name: Gonzalo Camarillo

Organization: Ericsson

Submission ID: 65

Hello,

we appreciate the opportunity to comment on the IANA Transition Coordination Group's proposal to transition the stewardship of the IANA functions from NTIA to the global multi-stakeholder community.

It is our belief that matters relating to protocol parameters, addresses, and domain names are best handled as part of the multi-stakeholder organizations set up for that purpose. These organizations have participants from the relevant communities. As a result, Ericsson supports the transition of IANA Stewardship from NTIA to the community.

Sincerely,

Gonzalo Camarillo

Head of Data/IT Standardization
