As a member of the Internet numbering community, I wish to state my support for the ICG's proposal for the IANA Stewardship Transition. Specifically:

- I believe that the CRISP Team proposal properly reflects the views of my community, gathered through an inclusive, bottom-up, multistakeholder approach

- I believe that the ICG proposal properly reflects the content of the CRISP proposal

https://www.ianacg.org/icg-files/documents/IANA-stewardship-transition-proposal-EN.pdf

- I support the statement by the CRISP Team, which concludes that the ICG proposal does satisfy all necessary requirements

- The transition process should be smooth, without affecting the functionality of normal users.Equal distribution of resources (Public IP address) and represntation, based on geograpghy and population should be done.

Yours sincerely,
